

# Gutter Cleaning Checklist

## Pre Cleaning Preparation

- ✓ Assess gutters and downspouts for blockages and damage.
- ✓ Confirm all safety equipment (ladders, gloves, goggles) is in good condition.
- ✓ Ensure ladders are securely placed and stable before beginning work.
- ✓ We are trained to walk on your roof to mitigate damage to tiles and fittings

## Gutter Cleaning Process

- ✓ Remove leaves, twigs and other debris by hand or with gutter scoops.
- ✓ Branches and larger debris are removed by hand.
- ✓ Flush the gutters with water to ensure free-flowing water.
- ✓ Ensure that downspouts are thoroughly flushed and water flows freely.
- ✓ Use a plumber's snake if necessary to clear stubborn blockages.

## Final Cleanup

- ✓ Collect and bag all debris for disposal.
- ✓ Clean up any mess made around the property during the cleaning process.
- ✓ Walk through the completed work with the client to ensure satisfaction.
